DETAILED ACTION

- 1. This communication is in response to the decision of the Board of Patents Appeals dated 12 August 2005. Claims 133-165 are pending in this application.
- 2. Claims 133, 134, 136-139, 141, 142, 144-147, 149, 150, 152-155, and 157-160 were affirmed and claims 135, 140, 143, 148, 151, and 156 are allowed for the reasons stated herein below.
- 3. The prior art of record (Anand et al. US Pat. No. 5,721,903 and Papierniak et al US 6,128,624) does not teach the limitations of claims 135, 140, 143, 148, 151, and 156. Claims 135, 140, 143, 148, 151, and 156 are objected to as being dependent upon a cancelled base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Even though, the prior art of record Papierniak discloses automatically generating a business database system, the prior art Anand and Papierniak fails to teach a method where instructions for a metadata schema contain semantic definitions and where a business database system is automatically generated using those semantic definitions such that the business database system is well-formed as discussed on page 13 of the decision of the Board of Appeals dated 12 August 2005. For these reasons claims 135, 140, 143, 148, 151, and 156 are deemed to be allowable over the prior art of record if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
